SPECIFIC FEATURES

OUR MISSION

Our mission is to provide sustainable practices so that our guests can have enriching and authentic experiences at our hotel. We encourage responsible travel and provide responsible vacations in order achieve a negligible carbon footprint. That is why we created a concept that is perfectly aligned with the hotel's natural surroundings.

PART OF THE UNESCO SUSTAINABILITY TRAVEL PLEDGE

As the advocates of sustainable travel, our pledge to the environment is to create and maintain sustainable standards, personally and professionally. We do this by:

- Supporting our local community: including locally sourced products, food and drink in restaurant.
- Conserving energy: the hotel is fully equipped with energy-efficient equipment; including solar power system, newest air-conditioning system
- Waste separation: smart system for recycling leads to better processing and separation of waste.
- Digitalization: self-check possible, as well as virtual registration process
- Minimizing single-use plastic: usage of natural materials instead that are easily recycled.
